The increasing troubles in Egypt Comment: in the past three months have promoted closer relations between Egypt and Frequent Egyptian abstentions on East-West issues in the General the USSR. Assembly meetings seem to confirm a November report that the two countries had reached a tacit understanding to aid each other's objectives in the United Nations.

| 6.    | Polish shipping to China through Kiel Canal doubled:  |  |  |  |
|-------|---|--|--|--|
| 25X1A | Polish shipping through the Kiel Canal destined for Chinese and Manchurian ports has, during the six-month period ending 31 December 1951, more than doubled the figure for the preceding six months. During the last six months of 1951, |  |  |  |
|       | approximately 45,000 cargo tons were shipped. The greatest increase occurred during December, when six China-bound ships carrying 25,318 tons passed through the canal.   |  |  |  |
| 25X1  | largely accounted for by the fact that Poland purchased three vessels of Panamanian registry late last fall.  |  |  |  |

| 7.    | East Germans call Soviet rejection of Berlin trade permits a "mistake":  |
|-------|--|
| 25X1A | East German officials have informed the West German Government that the return of large numbers of unstamped West Berlin ex-   |
|       | port permits during the past two days was a "mistake" on the part of the Soviet and East German authorities. The Communist officials maintained that the "rejections" were merely an attempt to clear up the entire backlog of export permits held by them, prior to the establishment of the planned joint East-West German procedure for handling the permits. |
|       | United States officials now do not regard the Communist action as causing a new crisis. US High Commissioner McCloy states that if further evaluation supports the Communists' explanation, the Allied High Commission may soon permit the West Germans to resume interzonal trade.  |
|       |  |
| 8.    | French irked at US position on Saar issue:   |
| 25X1A | The French Foreign Office is "not only adamant but apparently impatient" to give diplomatic status to its representative in the Saar, despite American requests for a delay. The French do   |
|       | not agree that this is a particularly bad time for such a move, and probably suspect that the United States' position may be developing in favor of the Germans.   |
|       | Comment: Although replacement of the French High Commission by an embassy would have no practical effect on its relations with the Saar, France wants to establish the basis for a permanent political separation of the Saar from Germany before the German contractual arrangements are completed.   |

9. Franco asserts Britain now favors American aid to Spain: According to General Franco, British Foreign Secretary Eden has assured the Spanish Am-25X1A bassador in London that Britain, far from objecting to bilateral economic and military agreements between the United States and Spain, would favor them in every Franco told American Ambassador Griffis on 23 January that immediately after this assurance was given, the British General Staff invited the Spanish Army Minister to send twenty officers to Britain as student observers. Eden's alleged remarks would Comment: represent a major shift in the British Government's attitude towards Spain. 25X1 25X1 The controlled Spanish press has of late been showing increasing cordiality towards Britain and has been hinting at a Franco-Churchill meeting. LATIN AMERICA 10. Serious illness of President Arbenz may precipitate revolution in Guatemala: Salvadoran Minister of Defense Bolanos, recently returned from Guatemala, expects an 25X1A anti-Communist revolutionary movement there "very soon." El Salvador and Honduras reportedly favor such a movement and will assist. 25X1A

While in Guatemala, Bolanos was reliably informed that President Arbenz of Guatemala has leukemia, but that the Army refuses him a leave of absence because his constitutional successor is a known Communist.

Comment: If Arbenz is seriously ill, as is now believed, the Army is undoubtedly preparing to assume control of the government. The supporters of Lieutenant Colonel Castillo Armas, the exiled military leader reputedly planning a military revolution for late January, would probably join forces with an Army revolt initiated within the country.
